Tracy was born in the Isle of Man and has lived in London and Bequia, before returning to her roots on the Isle of Man. Tracy has always worked in business travel, looking after prestigious corporate, VIP entertainment and marine clients. Tracy is committed to delivering exceptional service for clients and always looks for a solution, no matter how unusual the request. Whilst working for Amex in Barcelona during the 1992 Olympics, Tracy saw many famous people - but the one person that stood out was Fidel Castro striding through a hotel in Barcelona in his usual military fatigues!
